REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: After a review of the prior art of record, it is believed that the present invention is novel and non-obvious over the prior art of record wherein no reference discloses a vacuum bottle having an inner liner, an outer body in spaced relation and sealed to the inner liner to define a vacuum space between the body and liner, a transparent window, an interruption in the reflective material covering on the bottle aligned with the window and an indicator within the inner liner and aligned with both the window and the interruption so as to be visible therethrough to provide an indication of the level of the liquid contained within the liner. The closest reference, U.S. 5,653,362 to **Patel** discloses a vacuum bottle with a fluid level indicator, however the one embodiment, figs. 1-4 simply disclose a window and nothing within the liner to indicate fluid level, and the embodiment of figs. 5 and 6 disclose an indicator between the liner and the bottle.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Patrick F. Brinson** whose telephone number is (571) 272-4897. The examiner can normally be reached on M-F 7:30-3:00.
